

PROFESSIONAL SUMMARY

Results-driven Software Engineer pursuing a B.Tech in IT with strong foundations in Data Structures, Algorithms, and Object-Oriented Design. Proven track record of developing full-stack architectures, high-throughput REST APIs, and event-driven systems using Node.js, React, and Python, scaling applications to 500+ concurrent users with sub-50ms latency. Adept at translating business needs into high-availability client solutions.

WORK EXPERIENCES

- IIC SRMCEM

Technical Lead (Part-time)

Lucknow, Uttar Pradesh, India

Nov 2025 – Sep 2026

 - Spearheaded technical execution for a college hackathon, driving 25+ deployed software prototypes and achieving a 90% satisfaction rating by coordinating cross-functional student teams.
 - Delivered hands-on MERN stack training to 30+ developers, boosting technical proficiency by 85% and enabling independent delivery of 3 production-ready client prototypes.
 - Authored modular code templates and technical documentation, cutting onboarding time for junior engineers by 40% through standardized coding guidelines.
- Kandid

Junior Front-End Developer | Internship

Lucknow, Uttar Pradesh, India

Aug 2025 – Oct 2025

 - Engineered 10+ responsive user workflows using React and Next.js, cutting design revision turnaround by 40% through strict adherence to Figma specifications.
 - Optimized frontend asset rendering and DOM tree operations, boosting page load speeds by 30% and improving Core Web Vitals across 5+ client device breakpoints.
 - Collaborated with business stakeholders to refine custom requirements into clean, reusable component libraries with shadcn and Tailwind CSS.

PROJECTS

- Labour Baba – On-Demand Workforce Dispatch Engine

Jul 2026 – Present

 - Architected a geospatial dispatch engine leveraging PostGIS, slashing job assignment latency by 45% and achieving 92% proximity matching accuracy across 500+ workers.
 - Engineered a high-concurrency claiming pipeline utilizing PostgreSQL row-level locks and ACID transactions, supporting 500+ claims/sec while eliminating race conditions.
 - Deployed an event-driven pub/sub notification infrastructure using Socket.IO and Redis/BullMQ, maintaining <50ms real-time delivery across 10,000+ daily operational messages.
 - Tech Stack:** Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, Redis, BullMQ, Socket.IO
- PS-CRM – Scalable Enterprise Grievance & Incident System

Mar 2026 – Present

 - Designed an automated complaint routing pipeline using NLP and LangChain, reducing manual triage effort by 60% through automated priority scoring and duplicate filtering.
 - Engineered a 5-tier automated escalation engine with SLA breach webhooks and immutable database audit logs, guaranteeing 99.9% traceability for client service incidents.
 - Implemented multi-channel API integrations (Web, SMS, Webhooks) backed by AES-256 data encryption and role-based access control, accelerating resolution cycles by 35%.
 - Tech Stack:** Next.js, TypeScript, Python, NLP, LangChain, PostgreSQL, Neon DB, RESTful APIs

SKILLS

- Programming Languages:** Java, TypeScript, JavaScript, Python
- Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, System Design
- Frontend Development:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui, State Management
- Backend & Distributed Systems:** Node.js, Express.js, RESTful APIs, Redis, BullMQ, Socket.IO, Concurrency Handling
- Databases & Cloud:** PostgreSQL, Neon DB, MongoDB, PostGIS, Prisma ORM, Docker, CI/CD, Git
- Software Engineering Practices:** SDLC, Clean Code Architecture, Agile/Scrum, API Design, Technical Documentation

EDUCATION

- Shri Ramswaroop Memorial College of Engineering and Management

Bachelor of Technology in Information Technology

Lucknow, Uttar Pradesh, India

2023 – 2027

 - Coursework: Data Structures, Design & Analysis of Algorithms, Database Systems, Computer Networks, Operating Systems.
 - Maintained hands-on leadership in college technical events, driving technical workshops and peer programming sessions.
